

# Create a new warehouse

1. To create a new warehouse click on "Local warehouses" under "Warehouse" link (see the picture above);
2. After that you will see the form to create a new warehouse:

3. Fill in the name, description, address and internal storage format input fields.
4. Click "Save".
5. The new warehouse will be added to the table.
6. To delete the record click "Delete" link.
7. To edit the record click "Edit" link.

8. After editing click "Save" button. New values will be saved.
